HANDCRAFTED IN PORTUGAL

Limalha is specialized in the production of luxury hardware.

Limalha has been, over the years, trying to recover some of its historical heritage.

Our products are for people who notice and care about the details.

We connect Old World craftsmanship with modern precision to create hardware that transcends ordinary form and function.

LIMALHA

Collection

We are a company specialized in architectural projects in metal for interiors. The pieces can be furniture or other types of products. We like to create memorable experiences, in which the customers discover the pleasure of having pieces designed exclusively for them, made under the specifications indicated by them, and with the best quality guaranteed. The benefit of these pieces is that they are produced in serie, making the cost more attractive and providing the same satisfaction for the customers. We are an experienced and bold company that combines old with innovation. We have the ability to work with materials and concepts. We take risks and get involved in the world of design, we partner with designers and architects to explore new uses of raw materials. We work with metals such as brass, stainless steel even iron. These materials can have various types of finishes like polished and brushed. Each project is a new challenge to explore new possibilities.

TRADITIONAL MATERIALS & FINISHES

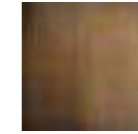

A contemporary collection for modern projects.

TRADITIONAL MATERIALS & FINISHES

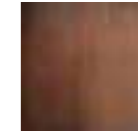

Brass may vary the colour under the conditions in which it is found, even after application of sealing varnish. Shipping can change the colour of the brass. The oxidation shade, when require this finish, will be as closeas possible to de sample approved by the customer, as it a handmad finish. Please contact our sales department for more information.
